PUNJABI

👤 PROFILE

Data Analyst with over 2 year of data analysis experience in Finance and Healthcare industry. Proficient in Power BI, MySQL, and Python for developing automated reporting solutions and data integration. Skilled at translating complex data into actionable insights through clear, accessible dashboards and reports.

💼 PROFESSIONAL EXPERIENCE

Technobooks FZCO
Junior Data Analyst
02/2024 – present | Dubai, United Arab Emirates

- **Data Visualization:** Create visualizations and interactive dashboards using tool like Power BI to present data insights in a clear and accessible manner for stakeholders.
- **Database Management:** Assist in managing and optimizing relational databases (MySQL, PostgreSQL) and ensure efficient data retrieval and storage.
- **Exploratory Data Analysis (EDA):** Conduct exploratory data analysis using statistical methods and tools like Python (Pandas, NumPy) to identify trends, patterns, and anomalies in the data.
- **Automated Reporting:** Develop automated reporting solutions using scripting (Python) to streamline data processing and reduce manual intervention.
- **Data Collection and Integration:** Gather and import data from various internal and external sources, including databases, spreadsheets, and APIs. Ensure data integrity and accuracy during the collection process.
- **Data Cleaning and Preparation:** Perform data cleaning and preprocessing using Python or SQL to prepare datasets for analysis. Address missing values, inconsistencies, and errors in the data.

NorthBay IT Solutions
Junior Data Analyst
02/2023 – 12/2023 | Lahore, Pakistan

Data Collection: Gather and import data from various sources including databases, spreadsheets, and APIs. Ensure data integrity and accuracy during collection.
Data Cleaning: Perform data cleaning and preprocessing to prepare datasets for analysis. Address missing values, inconsistencies, and errors in the data.
Data Analysis: Conduct exploratory data analysis to identify trends, patterns, and anomalies. Use statistical methods and data analysis tools to derive insights.
Data Visualization: Create visualizations and dashboards using tools like Tableau, Power BI, or Excel to make complex data more accessible and understandable.

Programming Skills
- Python
- SQL
- React JS (Web Development)

Visualization Skills
- Power BI
- Tableau
- Excel Charts

Database Skills
- My SQL
- Apache Hadoop

Soft Skills
- Communication Skills
- Presentation Skills
- Interpersonal Skills
- Time Management Skills

DevOcean Technologies
Intern Data Analyst
09/2022 – 12/2022 | Islamabad, Pakistan
- Conduct preliminary data analysis and generate reports to identify trends, patterns, and insights.
- Create and maintain dashboards and visualizations to track key performance indicators (KPIs).
- Support the development and maintenance of databases and data systems.
- Collaborate with team members to understand data requirements and deliver actionable insights.
- Assist in the preparation of data for presentations and reports to stakeholders.
